

Velocity 850R

Hardware Specifications

Bring accurate labor recording directly to your remote worksite. The Velocity 850R (Rugged Edition) is a sophisticated, feature-rich portable biometric time clock, with the ability to perform job costing and department transfers. Built tough for use on the jobsite. Ideal for construction, emergency management services, landscaping, utility crews, and other industrial settings. In addition, the V850R offers extended time tracking features such as break and lunch buttons and multiple pay rates.

Dimensions & Weight: 11.5" x 6" x 5", approx. 4.65 lbs.

Keypad: 25 keys (1-9, (decimal point), CLEAR, ENTER, MENU, Meal/Break Keys). Key "Click" selectable by user. If enabled, the clock will emit a short beep with each key press.

Battery Back Up: on-board battery keeps time for 20 days and retains punch data for ~ 100 years after loss of power. Stored data uses nonvolatile memory.

Display: 3" x 1" LCD capable of displaying 4 lines of 20 characters each. Clock can display date in either US (MM/DD/YY) or Euro (DD/MM/YY) format.

Data Entry Options: award-winning biometric fingerprint reader and direct entry of data via the built-in keypad.

Communication Options: Ethernet, cellular modem (GPRS). Only one communication option can be selected per clock.

The Velocity850R time clock uses TimeForce On Demand for communications. The advanced capabilities of On Demand provide many benefits including:

Real-time communications with TimeForce II. Employee punches are sent immediately to TimeForce II for processing.

Automatic synchronization of employee data and biometric templates. The R850 will always have the most up to date data when your employees punch.

Improved biometric template management: Biometric templates are stored on the server for immediate access by any Velocity clock in your system.

100% availability: All communications take place in the "background". Your Velocity R850 time clock is available for use 100% of the time.

Simplified clock management: On Demand makes it easy to install or replace a Velocity time clock.

The Velocity clock can also be used with TimeForce systems that require ClockLink for data communications.

Ethernet: 10/100 Autoswitch Ethernet connection. IP address and Subnet mask can be set by the user to any value. Standard 10/100 Base T (RJ-45) connector.

Cellular Modem (GPRS): GSM Network Type. Supported providers: AT&T data plans available from Infinisource. An external facing IP address that is accessible from the Internet is also required.

Storage Capacity: Unlimited while on-line with On Demand (The Velocity can store up to 16,000 entries while off-line).

- ✓ Biometric
Absolutely accurate, eliminates buddy-punching
- ✓ Completely Mobile
Easily moved to and from any jobsite or vehicle.
- ✓ Battery Powered
Minimum of 12 hours of operation per charge.
- ✓ On/off switch allows extended battery life. Turn off the clock when not in use.
- ✓ Batteries are rechargeable using vehicle power supply or standard outlet.
- ✓ Tough
Built to withstand drops of up to 3 ft.
- ✓ Job Costing
- ✓ Department Transfers
- ✓ Breaks and Lunch Tracking
- ✓ Multiple Pay Rates

New England's Largest TimeForce Dealer - Look to us for the best in Sales, Implementation and Ongoing Support for TimeForce products. Customer Service is our #1 Goal so contact us first you will be glad you did.
